Welcome 1424 with the culinary flavours of Bengal

Spice up your taste buds with the aromatic flavours of Bengali cuisine. A perfect array of authentic and contemporary Bengali dishes such as the delectable gundo anchar margos, the delightful chingri macher sobout and the delicious moshar ghonto, over live folk singing and a little 'adde' is what The Gateway Kolkata offers you this Poite Soshukh. Get into the festive spirit with a Welsh buffet on the first day of Baisakh.

18th April, 2017
12:30 pm to 3:30 pm & 07:30 pm to 11:00 pm

Did you know?

Kolkata Biryani originally evolved from the Lucknowi style.

Awadh's last Nawab Wajid Ali Shah, while exiled in 1856 to the Kolkata suburb of Metiabruz, brought Lucknowi Biryani to Kolkata.

PRESENTS

Let's Talk
by Sunita Bose

Over the years we have helped over 10,000 students find admission in the best universities abroad.

ELECTRONIC EDUCARE

A brand of Yarrowtech

OVERVIEW

- ~ Technology that does a really good job at solving a specific problem.
- ~ Making learning better with the help of advanced computer programs.
- ~ Using smart computer programs to gather useful information and learn from it.

SOLUTION

We have found the best way for kids to learn - they can study with minimal effort. The software also allows parents to observe how the children are progressing in their learning. We use a computer program called EEC AI to help us make sure that we execute our ideas the right way, which in turn helps teachers give the right lessons at the right time.

ABOUT US

Our software, EEC, provides educational assistance to schools. It helps teachers, parents, and the management work together to find the best solutions for students. With EEC, educators can get detailed insights to provide better guidance and support.

We primarily strive to bridge the gap amongst students, teachers, parents and the management.

KEY FEATURES

Autograding, curriculum mapping and tailor made learning objective

We have a smart computer program that can help find the best solutions for academic problems. It uses automation to make things easier. It can also analyze information to find specific areas where more information is required.

OUR SUPPORT

We have a group of skilled professionals who are very knowledgeable in their areas of expertise. Their job is to figure out what our clients need and come up with a good solution using a device called Electronic Educare software.

PRICING

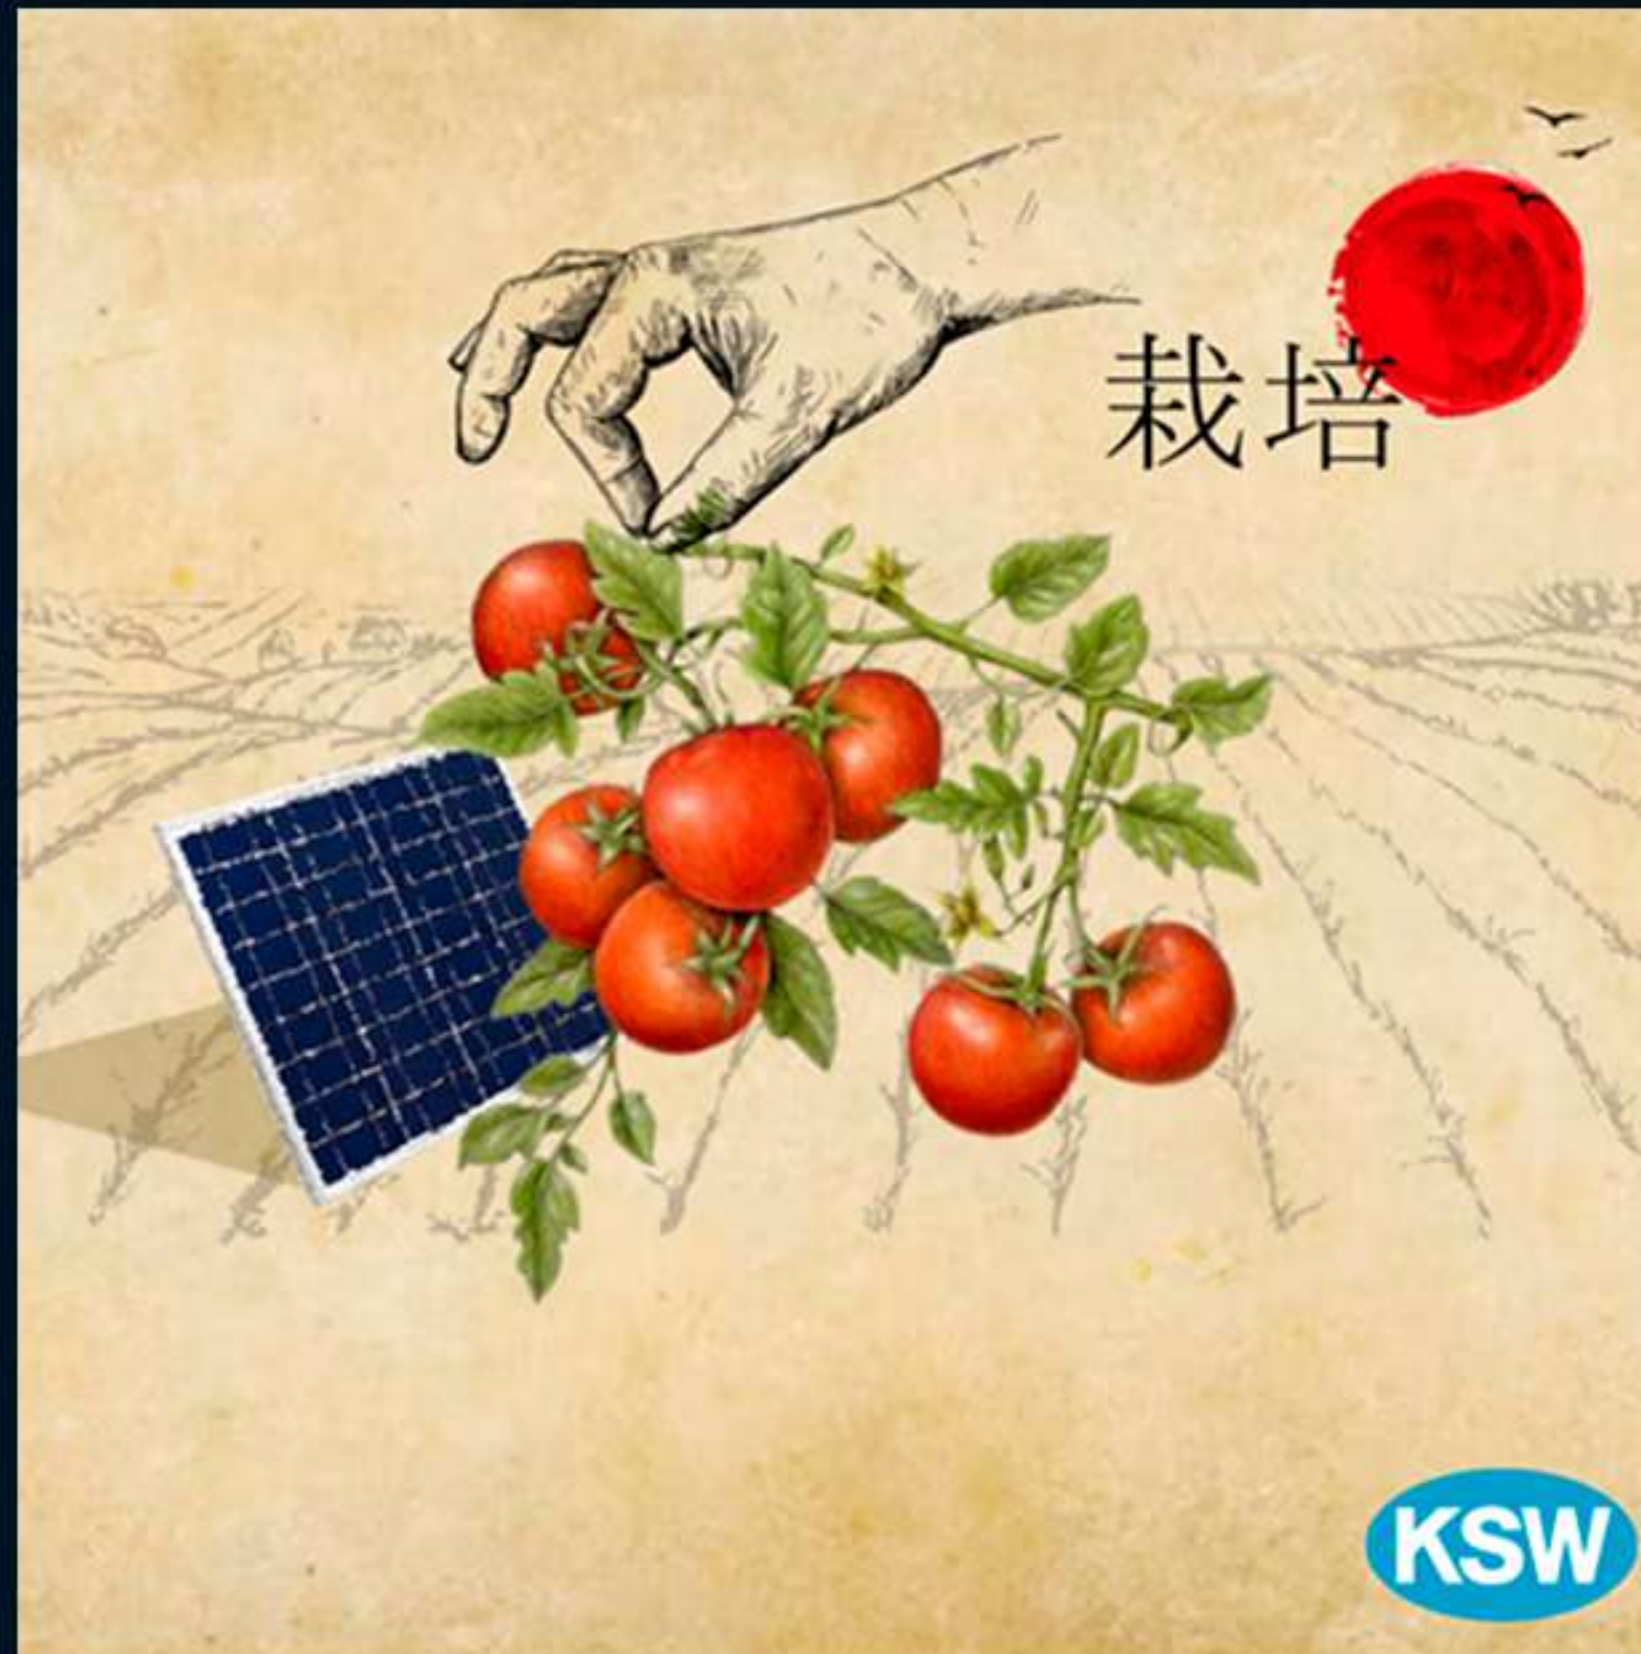

We have a solution that fits your needs and budget. We have created a subscription plan that gives educators and students access to all our resources, training, and ongoing support. The cost of the subscription may change based on what we need to provide.
